

Enterprise Rent-A-Car Agreements

Vehicle Rental Car Program

The campus agreement with Enterprise Rent-A-Car is administered by Fleet Services and allows rentals by students, staff, faculty, volunteers, and other affiliates. The agreement may be used three different ways and it's possible that at least one of these will align with what you're looking for:

For Personal Use

When using the agreement for personal use, please reference Corporate ID, **UCBGEN**. You get the same rates as listed on our [website](#) but not the same terms. For example, age requirements may vary, and the insurance normally extended to the University is not included for personal rentals.

For Business Use

Individuals may use the agreement for University business while paying with a personal credit card using Corporate ID, **UCB23AB**. Please arrange with your department for reimbursement using University funds.

For High Volume Business Use

Departments may elect to set up a Fleet Code for high volume use. There is currently an initial set up fee of \$40 and a monthly administrative fee of \$6. These rentals use the Corporate ID, **UCB23AB** and assigned Fleet Code. The bill is sent directly to Fleet Services and recharged to the appropriate department.

Due to the COVID-19 shelter in place order, Enterprise Rent-A-Car has closed several locations in close proximity of UC Berkeley campus, including 1990 Oxford Street, Berkeley, CA, effective immediately.

Currently, services will be provided at 3030 Broadway, Oakland, CA. Pick-ups are available but are limited due to safety concerns. During this time, Enterprise will be waiving its young renter fee, which usually applies to drivers age 18-24 for personal use.

FasTrak Accounts

Policy Update

Recent policy changes now allow FasTrak accounts to be set up on BluCard, when requests are submitted to creditcard@berkeley.edu. Requests must be sent prior to setting up an account. For more information regarding the BluCard Program, please refer [here](#).

For departments that do not wish to set up FasTrak accounts, please remind your drivers to pay when crossing bridge while driving a UC vehicle. University funds may **not** pay or reimburse the penalty portion of a toll violation. Drivers are responsible to pay the penalties for toll violations, just as they are responsible for [parking citations](#).

Effective immediately, all toll violations must be resolved within a month after the initial communication. Any violation that exceeds this time period will receive a non-compliance fee (currently \$80) for every month the violation is unresolved.
